Analysis

NW Florida.

Bloom has intensified offshore of St. Georges Island (29.5N, 85W). Area right next to coast from Cape San Blas to Panama City (85.8W) has probability of K. brevis at medium concentrations.

SW Florida. Strong offshore bloom of likely K. brevis 15-30 miles off Venice ((26.5-27N, 82.6-83W). No change to Nov 28 (last image).

From Sanibel south to Naples a complex bloom has developed. Potential for K. brevis, but should include other material.

Stumpf
